**CHOC**

Children's Hospital Of Orange County.

**MISSION**

To nurture, advance, and protect the health and well-being of children.

**Vision...What CHOC Aspires To Be**

To be a recognized leader in children's health and well-being through excellence in comprehensive medical care and strong physical, family and community relationships.

**Why a Children's Hospital?**

Children with illnesses or injuries often need to be cared for by multidisciplinary medical teams offering a wide range of expertise. Children's Hospital of Orange County is able to provide and put these teams together quickly, using all it's staff members, specialist and community physicians best qualified to meet each child's unique medical needs.

**Andy Enroth**

Andy represents thousands of children in Southern California that are helped by Children's Hospital of Orange County on a daily basis. Andy was born, on February 27, 1999, four months premature and weighing only 1 pound 4 ounces. The "Big Fella", as we call him, since his birth, has experienced several medical struggles. These struggles include major visual impairment, feeding problems, seizures, asthma, mild cerebral palsy, and countless surgeries to try and correct these problems. Through it all, Doug and Lori Enroth, Andy's Mom & Dad, have been fortunate enough to turn to CHOC for Andy's unique medical needs.

Andy is now eight years old and while his struggles are not over, he is a happy and loving child. Andy amazes us all with his huge accomplishments which include learning to walk, talk, sing and listen to music. So many of these accomplishments have been made possible with the help of CHOC. Through the countless difficult times, Doug and Lori have often commented on their appreciation for CHOC.

We are so proud of Andy and his family, and we feel honored to include Andy in all of the events of the Foundation. We are certain that Andy's life is full of meaning and he has touched all of those that know and love him.

## James William Peabody

James William Peabody was born, along with his identical twin brother Jacob William, on October 22, 2000. James lived for a precious eleven minutes before becoming our beautiful angel. James died from a fatal birth defect known as Anencephaly. This is a neural tube defect that has no known cause and occurs in the first 4-5 weeks of a pregnancy. While many babies are born still, we are thankful

The JWP Foundation  
www.jwpfoundation.org

that James was with us for a few moments on Earth before beginning his eternal life in Heaven.

James William is our hero in ways no one will ever understand. We believe he is the strongest person we have ever known, and are unbelievably proud to have James as our son. At six years old, Jacob knows of his brother, speaks of him often and loves him very much.

## ABOUT JAMES WILLIAM Cont...

James will forever be our son and while we do not get to spend our lives with him on Earth we are thankful and proud to have him as a part of our family. James had a soul and a beating heart. And as short as his life was, James has a purpose to this day.

Dave started the James William Peabody Foundation ( A 501 (c) (3) organization), to honor our son. Together, we have chosen to use our son's life and memory to help other children. We hope that while you join us in raising money for others in need, you will take a moment to remember our son, hug your own children and think of all the children who are struggling with battles of their own.

Thank You For Your Support!

Proceeds generated by the James William Peabody Foundation are currently going to following;

- The JWP Foundation Sponsor A Child Program
- CHOC (Children's Hospital of Orange County)
  - The Special Olympics
  - Disabled Veterans of America
